Together hope grows.

Grief Support in Libraries

**Do you know a grieving
child or teen?**

Grief's Journey partners with libraries to provide resource kits that can be checked out like any library book. Each kit is filled with grief-related books and DVDs designed to provide grieving families additional support when faced with a loss.

Healing Hearts Kits are found in Omaha Public Libraries, and **First Aid Kits for Grieving Hearts** can be checked out at many community libraries in other area library systems. Child, teen, and Spanish versions are available. Ask your local library for details.

Don't have a kit in your library?

Kits are available for libraries, schools, and agencies to adopt at any time. Visit our website to place your order.
